

## **Low Voltage Landscape Lighting Technician**

Are you passionate about pursuing a unique career in the landscape industry? Are you creative? Have exceptional fine motor skills? Do you excel at customer service? If you have answered YES to the questions above, this may be the opportunity for you!

We at Moon Glow Lightscares take pride in the highest quality of work offered to our clients, and the fantastic, supportive, family-friendly environment we offer to our team members. We don't just want you to come work for us; we want to help you build a stable exciting career.

### **Overview**

The Lighting Technician reports directly to, and takes direction from the Senior Management Team. The successful candidate will assist with: assembly and installation of low voltage light fixtures, perform light construction duties, attend service calls, and provide outstanding customer service. Given that the nature of the work is low voltage, no additional certifications are required. This will be an evolving position with opportunity to assist other areas of the business, as well as pursue individual career development opportunities. Winter hours will be supplemented with snow removal responsibilities.

### **Compensation**

The Lighting Technician will receive an hourly wage starting at \$16, with considerations made for experience and additional certifications. In addition, the successful candidate will be offered a comprehensive company benefits plan, as well as opportunity to participate in a company-matched individual RRSPs, and paid training opportunities.

### **Key Requirements**

- Ability to read, and follow directions
- Outstanding oral and written communication
- Exceptional attention to detail
- Work independently and as part of a team
- Flexible and adaptable on the job
- Willingness to complete applicable training/certifications
- Ability to work at heights
- Stellar customer service

### **Assets**

- Experience or interest in landscape/holiday lighting
- Interest in assembling, building, completing project-based work
